MOOVAIR HEAT PUMPS

Comfort for every season.

Explore two heat pump options for rural Ottawa area homes heating with propane, with heating and cooling in one system.

Compare your options

System details	2.5 ton	3 ton
AHRI reference	216623454	216623456
Cooling efficiency (SEER2)	16.0	15.8
Heating efficiency (HSPF2, Region V)	8.2	7.9
Heating capacity at 47°F	30,000 BTU/h	38,000 BTU/h

Ratings apply to the specified AHRI-matched systems. Confirm the exact outdoor/indoor model combination and certified ratings with AirZone before purchase. Product image is illustrative; appearance may vary by model.

PRICING & ESTIMATED OPERATING COSTS

Plan your investment.

Installation pricing	2.5 ton	3 ton
Installed price before tax	$7,650.00	$8,500.00
HST (13%)	$994.50	$1,105.00
Total installed price	$8,644.50	$9,605.00
Illustrative Ontario rebate	-$3,125.00	-$3,958.33
Cost after Ontario rebate	$5,519.50	$5,646.67

Ontario examples use $1,250 per ton of rated heating capacity at 47°F for eligible propane-heated homes. Equipment qualification and rebate approval must be confirmed.
